Notes:

The Red cells are below the weekly average for the year and Green are above.
The idea is to show if the previous years had "up" wweeks or "Down" weeks
If you click the plus sign by the week number it will show the dates for that week.
The Red cells are below the weekly average for the year and Green are above.
The Black "Location" block lets you select the locations to include in the data.
The Events table shows the week number for that event by year. This is just for reference when looking at the data.
Idea here is to add to this list if you have other events that effect the counts.
